Hospital Infection Control & Prevention

For 34 Years The Leading Source Of News And Comment On Infection Prevention

2008 Index

Abstract & Commentary
- MRSA active screening, AUG:91
- SARS and pandemic flu, MAR:33

Ambulatory care
- Answers to questions on Las Vegas HCV outbreak,APR:40
- Call for action after Vegas HCV outbreak, APR:42
- CDC mulls theories in Vegas HCV outbreak, JUL:78
- Endoscopy clinic owner says charges unfounded, APR:45
- HCV outbreak at Las Vegas endoscopy clinic, APR:37
- Nurse anesthetists stress safe needle practices, APR:44
- Nurses used different needle practices in Vegas clinic, AUG:87

Association for Professionals in Infection Control and Epidemiology (APIC)
- forms consulting arm to meet increasing regs, DEC:138
- tries to leverage CMS regs into resources for IPs, MAR:30

Catheter-related bloodstream infections
- AHA protests prevention program halt, MAR:28
- Checklist to aid prevention, FEB:15
- Leapfrog Group protests prevention program halt, FEB:16
- Program to prevent shut down due to human research concerns, FEB:13

Chief executive officers (CEOs)
- an agent of change after fatal outbreak, SEP:101
- Convergence of CEOs and patient advocates, NOV:123
- Accountability of in compendium document, NOV:125

Centers for Disease Control and Prevention
- Compendium guidelines endorsed by, NOV:121
- Measles guidance may be revised after outbreaks, MAY:49
- Measles means move quickly:MAY:53
- UTI guidelines on fast track, MAR:25

Centers for Medicare & Medicaid Services (CMS)
- ambulatory regs call for designating a trained IP, DEC:138
- Make patients your medical and moral compass in complying with, NOV:128
- sharpens infection control regs in ambulatory care, DEC:138
- surveyors missed unsafe needle practices in Vegas clinic, DEC:133
- tool for ambulatory care surveys, DEC:135

Congress
- puts heat on about infection prevention, JUN:67
- zero tolerance program praised by, JUN:66

Clostridium difficile (C. diff)
- APIC survey finds rampant, DEC:139
- deaths nearly double from, JUL:80
- national prevalence study planned:MAY:54
- Suspicion focuses on food supply, MAY:56
- Survey number crunching, DEC:141

Community-associated Methicillin-resistant **Staphylococcus aureus (CA-MRSA)**
- USA300 strain coming into hospitals, MAY:57

Government Accountability Office (GAO)
- blasts HHS leadership for health care infections, JUN:67

Hand hygiene
- Frequent hand washing may heighten risk of dermatitis, MAR:31
- Patient education video on, AUG:97
- Observation tool for compliance, SEP:102
- Study shows infections cannot be prevented by single intervention, MAR:29

Hepatitis C virus
- Molecular epidemiology in outbreak of, APR:46
- Outbreak in Las Vegas endoscopy clinic, APR:37

HIV
- CDC cautions about report of rise in new infections, JAN:11
- Testing in ED could detect many unaware of status, AUG:90

Infection Control Professionals (ICPs)/Infection Preventionists (IPs)
IPs and patient advocates, DEC:142
Can't 'own' the problem, OCT:109
Name change for profession, AUG:85
Nevada health officials may tap in light of outbreak, AUG:85
Poised to lead the way, OCT:111
Proposed state laws in Nevada may call on, OCT:115
Q&A with Peter Provonost, OCT:113
Time is right to make 'business case' for, JAN:7

Influenza
Eighty-three children die, most not vaccinated, AUG:93
Elderly vaccinations a controversy JAN:1
HCW vaccination and social networking, MAY:58
Rapid test approved for, MAR:34

IP Newbie/Wisdom Teachers
(Monthly supplement profiling new practitioners and experienced professionals. All issues are available to subscribers in the HIC archives at http://ahcmedia.com.)

Joint Commission
Campaign to improve HCW flu vaccination rates, OCT:117
Compendium guidelines on track to become standards, NOV:121

Joint Commission Update for Infection Control *(Supplement)*
CA-BSIs best prevention practices, SEP:SUP3
Checklists approved by Joint Commission, JUN:SUP1
Hospital cleanliness emphasized, JUN:SUP4
MRSA active surveillance dropped in pt safety goals:SEP:SUP1
Pediatric medication errors prompt warning, JUN:SUP3
Proposed 2009 patient safety goals, MAR:SUP3
Sentinel event reporting Q&A, DEC:SUP2
Sentinel event reporting urged, DEC:SUP1
SSI goal says look a month after procedure, SEP:SUP4
Tips to conduct your annual IP risk assessment, DEC:SUP4
Ups ante with 2009 patient safety goals, MAR:SUP1
Urges more HAI sentinel event reporting, DEC:SUP1

Journal Reviews
C. diff a problem even at endemic levels, AUG:95
Community hospitals hit by MRSA, JUN:71
MRSA active surveillance, JUN:72

Measles
Imported cases hit hospitals, MAY:49
Outbreak risk increasing, OCT:118
Screening tool for cases of, MAY:51

Methicillin-resistant **Staphylococcus aureus** *(MRSA)*
Discontinuing contact isolation, SEP:105
Hospitalizations double from 1999 to 2005, JAN:8
Pneumonia caused by kills young, healthy patients, JUL:83
Rapid test approved for, MAR:34
USA300 strain in the hospital, MAY:57
Using 'positive deviance' to prevent, SEP:97
Vancomycin losing potency, JUL:79

Needlesticks
Survey finds still a major concern, AUG:92

Occupational Safety and Health Administration (OSHA)
Number and cost estimates for pandemic respirators, JUL:81

Pandemic flu
Antiviral stockpile plan draws fire, JUL:73
Elderly may suffer major impact, JAN:4
Hospitals should stock antivirals, JUL:75
OSHA pandemic mask costs, JUL:81
Respirator improvements for HCWs under study, MAY:59

Positive deviance
Hospital slashes MRSA rates with, SEP:100
Using to prevent MRSA, SEP:97

Readers Write
Shift emphasis from surveillance to action, NOV:130

Society of Healthcare Epidemiology for America (SHEA)
At 'midlife crisis,' must reassess its role, JUN:64

Surgical-site infections (SSIs)
Involving the patient to prevent, SEP:104
Preventing more important than ever, SEP:103

Tuberculosis
Deaths, severe reactions after treatment for,JAN:9
Respirator improvements for HCWs under study, MAY:59

Urinary tract infections (UTIs)
CDC guidelines to prevent, MAR:25
Get no respect from hospitals, FEB:17
Keys to preventing, FEB:21
Patient education handout, NOV:125

Vaccines
Recall of Hib puts children at risk, FEB:18

Vancomycin
losing potency against MRSA., JUL:79

Zero tolerance for infections
IPs under pressure to keep infection rates at zero, JUN:61
Program associated with praised by Congress, JUN:66
